## Faculty and Students Guide ACTIVITIES

## "A COLLEGE IS PEOPLE . . ."

The administratars are the people who build the callege araund the students and their needs. In their minds and in their hands lie the foundations of many new buildings, rules and changes which affect the Union students, the state of Tennessee and the education as a whole.

Their realm in the college warld is made up af jobs which range from signing a contract which will begin constructian on a new building to appraving senior class plans for graduatian.

From the Coffee Shop the fun seeking student may travel in mony directions. One direction, ond sometimes the most fovored one, is toward the dorm to catch up on his sleep. But the more active student might work out at the gym or go bowling.

A game of checkers in the coffee shop is always eniayable. Shown here are Jerry and Terry Redfern ploying checkers as Charles Haily looks on.

## CLASSES

Na matter where the class is held ar under what circumstances, it is held for the students ta learn.

At Union class space is so important that when a new building is canstructed to house a department, the old building is never tarn dawn. It is always renovated to give mare space to other departments and meet the growing needs.

Students are pictured in line as they wait ta begin registratian.

The idea that classes, greeks or independents, the word "sacial" plays an important part in every student's life.

Bath Greeks and independents organize and spansar activities which may celebrate anything Homecoming to Spring Festivities. With activities such as guest speakers, dramatic praductions, and campus movies, the student can find means to express his social wants.

The question is often asked, "How much sacial and how much academic?" At Union the students are tald to augment their academic lives with social activities, not to augment their social activities with their academic pursuits.

Each year of Homecoming orgonizotions compete for the President's Cup which is given to the best disploy. Pictured above is the winning display of 1965, which was mode by the AIת's.

## "AND A PLACE . . ."

Fram the grandfather af all buildings, the Administration Building, pictured on the left, to the newest additian, Ellis Hall, pictured above, Union has expanded its physical facilities ta meet the needs of an ever growing student bady.

These buildings are the physical part of the campus. When an alumni thinks of his callege life, usually the first picture coming ta his mind is that of ane of the buildings. As varied as the different students, Unian's buildings span many decades af architecture. The design of the new structures which will be erected in the near future paint the way toward a prasperous and modern Unian University.

## Foreword

## PEOPLE, IDEAS, PLACE . . . AN IMAGE

Union University is made up of ideas that are rapidly gaining in scope and perspective.

Majors in thirty fields are affered in the academic curriculum and enrollment hos soared to an all-time high. Buildings and faculty ore being increased to meet the demands of a dynamic student bady. Changes are taking place before our eyes.

Education is the spectrum through which our images appear. The college annual is the means by which we present and preserve this spectrum. We, the staff, hove taken the ideas of the students and portrayed them, hence as they emerged into their final farm-an institution of higher learning with a vivid life of its awn.

We hove attempted to paint a very real portrait, depicting the school, its character, and life as it was lived in 1964-65 on the campus of aur college.

Thus, it is with pleasure that we bring inta focus - UNION UNIVERSITY - AN IMAGE.

## Dedication

> Toiling - rejoicing - sorrowing Onward through life he goes;
> Each morning sees same task begin, Each evening sees its close;
> Something attempted - something done, Has earned a night's repose.

> Thanks, thanks to thee, my warthy friend, For the lesson thou hast taught -
> Thus at the flaming farge of life Our fortunes must be wrought;
> Thus on its saunding anvil shaped Each burning deed and thought!

Henry Wadsworth Longfellow

Perhaps these are lines which characterize best the life of a man who has worked with his hands as well as with his mind, wha has devated himself to each day's tasks with courage and with ability who has seen things improved and accomplished as a result of his directing and guiding hand.

In appreciation for his forty-six years of unselfish service to Union University - its administration, its faculty, and its students;

In appreciation for the lesson of persistence and devotian to worthwhile endeavour that we can learn from his life;

And in appreciation for a man who has done his best in his work although the spotlight of praise and attention has rarely been focused on him,

We, the staff of LEST WE FORGET, dedicate this 1965 publication to

Mr. Jim Stratton<br>Superintendent of Buildings<br>and Grounds

Enrallment increases every year an college campuses and

## A fraternity is not necessorily a brotherhood.

Brotherhood is not achieved by owning a pin or sewing o crest on a blazer; it is not found in a ritual or secret hondshoke; brotherhood doesn't happen overnight when the pledge button is swopped for an active's bodge; it isn't a Thursday night meeting. Brotherhood must be earned-individually. The price may be humility, selflessness, or disregard for personal glory; the ingredients are honesty, integrity, respect; the catalyst-love of one's fellowman.

One pays the price of brotherhood by working to benefit his brothers. His task may be sculpting paper maché for a Homecoming display - his reward: the quiet pride of owning a small port of the President's Cup for first place. His work may be mental: hitting the books when a good movie beckons - his payment: a portion of one of the scholarship awords in the moin hall downstairs. The job may be physicolly strenuous: intramurals - his personal satisfaction: first place in the Intramural Cross Country Run or first string on the basketball teom. The fields of individual endeavors vary from active to active; student government, positions on schooi publications, banquets, sploshes, sports, studies, dramatics, dote parties, B.S.U. all demond the best of the active; and only by doing his best does the brother aid his chapter, his school, his fellowman.

Brotherhood is the goal of the fraternity - that intangible that gives the President of the Student Body a common bond with the first string second-baseman on the boseball team or provides the coptain of the track team and the stage monager of the class play with a grounds for friendship. Our definition must have as many facets as the varied backgrounds, personalities, ond interests of the brothers who compose a fraternity.

When our individual pins gather the dust of the favored corner of the ottic jewelry box, and our old white brick house on main street remains but in photographs, we shall still be reaping the benefits of A.T.O. When the music of a thousand "Sweetheart Songs" has quieted, and the calm pursuits of business life replace the troumas of exams and chopel cuts, we shall still use the lessons offered us by our fraternity todoy.

The faces of present Taus must inevitobly join the composite occupied by previous graduates of Union. Our present day events will one day become memories - memories that will be clearer because we were A.T.O.'s.

We serve our brother; we serve our fellowman. It is our desire to make college life a better life in order that we may one day better serve both.

We are o brotherhood.

The year 1964 will long be remembered by the men of Lambda-Zeta of Lambda Chi Alpha. The spring brought another successful Mayday, and another thoroughly enjoyable Spring Splash at Paris Landing. The summer months passed much too quickly but not without event, as Brothers Nick Harris, Bob Street, and John David Myers braved a hurricane to represent us at the national General Assembly in Miami, Florida. The brothers, too, were scattered all across the United States, some working as far north as Connecticut and Pennsylvania. With the beginning of the fall semester, Lambda Chi began and succeeded in another splendid rush. The fall pledge class boasted a total of twenty-one fine men. Intramuralwise Lambda-Zeta finished a comfortable second in football, losing the championship game by a close score of 13-7. Brothers Nick Harris and Buddy McMillin were elected presidents of the Senior and Junior classes respectively, while Brother Barry McLean held down the position of Sophomore vice-president. Lambda-Zeta also boasts most members in such campus organizations as the Nestor Club and the Union University Singers.

The culmination of years of hard work and eager anticipation came about at the end of 1964: Union Colony officially became Lambda-Zeta. Ceremonies lasted an entire weekend with representatives from Tennessee and Arkansas chapters present for the occasion. An installation Banquet took place to honor the new chapter, new officers, and the chapter's new Crescent Girl, Miss Gail Reeves of Lexington, Tennessee. Gail is a sophomore and a member of Chi Omega sorority, and has already proved her willingness to work for and support LambdaZeta.

Since its founding in 1909, Lambda Chi Alpha has taken its rightful place among the top ten fraternity organizations in the Greek world. Here at Union it has been our never-ceasing goal to.seek to strive wholeheartedly for the ideals and precepts which make up the foundation on which rests the past and the future of this great fraternity. We at Union, therefore, are extremely proud to be counted as one of the more than 150 active chapters at colleges and universities across the United States and Canada.

The men of Lambda Chi take Jesus Christ as our exemplar, and base our brotherhood on the ideals and teachings of Christianity. Every Lambda Chi is an integral part of our closelyknit brotherhood, having achieved that feeling of relationship which renders mere friendship almost inadequate.

It remains our sincerest desire that in our short history on Union's campus we have had some small part in adding to and creating a better atmosphere in which to work, to play, to spend these most important four years.

Mrs. George "Mom" Woller
Housemother

Another year has rolled around and Lambda Chi likewise forges ahead, to meet their responsibilities in every area of fraternity function, and continue their success on campus.

Lambda Chi Alpha, in our brief existence on this campus, has laid for themselves a stable groundwork for countless possibilities for a rich future. There is still work to be done, and barriers to be removed, but the path to satisfaction in a job welldone has been cleared somewhat. Those men who have gone before and those who leave this year can do so with an overwhelming sense of pride in achievement and hope for a better future for their Lambda-Zeta at Union University.

## Sigma Alpha Epsilon

Tennessee Eta of Sigma Alpha Epsilon has the distinction of being one of the oldest social organizations ond the leading froternity in the nation. Tennessee Eto is the oldest social organization on the compus of Union University with a history of 108 years of loyalty to the school. The chapter was originally installed ot Union University at Murphreesboro and has faithfully followed the trovels of the institution since 1857.

This year Tennessee Eta has lived up to the reputation of being o lively orgonizotion. After a successful fall rush in which twenty two men were pledged, the Sig Alphs went on to an undefeated and untied football season which saw only seven points scored against the Purple and Gold.

After Intramurals slowed, the social aspect of the froternity became more apparent. The traditional Bowery Party was a noteworthy occasion at which guests were entertained in the monner like unto thot ot any of the better clubs.

The annual Coronotion Banquet was held at Tyler Towers where guests were treated to "An Evening in Paris", complete with fountains, Eiffel Tower and the Arc of Triumph. The outgoing queen, Miss Marie Crouch, crowned the radiant Miss Kaye Fereeas EAE Queen for the coming year.

EAE's carried their share in many school octivities, commonly being found on the Track, Cross Country and Tennis teams. Men of Tennessee Eta olso held positions of importance on the IFC, Student Government Association and in the professional organizations on campus.

Yes, mony wonderful memories come to mind as the year is reviewed-memories which will live on the minds ond lives of the men who experienced them, and who were made better men because of them.

## Editor's Letter

As the final layouts are being drawn and the last piece of capy being written for the 1965 LEST WE FORGET, I look back to a time when the book you now hold in your hands wos only a few ideas scribbled on paper.

Now just six months later it would take three volumes to hold the ideas, meditations and happenings that have occurred. The most difficult goal was to find a theme and then carry that theme out. The theme this year was to present the images af Unian University as they appear to different students. I think we have done it-haw I do not know.

My most desired wish is that, by reading the 1965 LEST WE FORGET, yau can clearly visualize Union University, its surface, its $\operatorname{cog}$ wheels, its purpase and most of all the things that make aur hearts grow warm when we think of Union University.
